How to install Origin and OriginPro Group license

Origin and OriginPro 8 Concurrent License

You have a version 8 **Concurrent Network license** if your serial number is xxxxx-2xxx-xxxxxxx or xxxxx-3xxx-xxxxxxx.

If your serial number is xxxxx-9xxx-xxxxxxx or xxxxx-6xxx-xxxxxxx, then you have an Individual User or Group license and the information on this page **is not** relevant to you.

- To learn how to set up your Origin/OriginPro Concurrent Network, please go to:

http://wiki.originlab.com/index.php?title=Category:Concurrent_Network_Packages

If you are upgrading from a Version 7.5 Concurrent Network, this documentation provides tips for you also.

- To review installation and distribution techniques, please go to:

http://wiki.originlab.com/index.php?title=Category:Multi-user_Site_Deployment

After reviewing these documents, you may need to download the installation files for a FLEXnet server or the OriginLab vendor daemon.

Please go to <http://www.originlab.com/index.aspx?s=9&pid=1051> to download these files.
